CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Construction On Hospital Going On

Actual construction of Pahokee's new hospital is well under way this week, according to city officials who are keeping an eye on the job. The site is located on Barfield Highway immediately north of Pioneer Lumber Company where the hospital board purchased a 10 acre tract for the new site of the hospital.

Construction will begin this week to show above ground. During the past few days work has been centered on driving the piling and placing construction material for the streets planned to surround the new facility.

Residents of the area are optimistic over the fact that maybe the contractor will have the hospital ready a few weeks earlier than the time limit of a year granted him in his contract.

HAYDON BURNS

Jacksonville's popular mayor of many years service, Haydon Burns, will go into the second primary with Miami Mayor Robert High in a battle royal for the state's highest position—that of governor. Scott Kelly of Lakeland finished third and Palm Beach county's favorite son, Bud Dickinson, came in under the wire in fourth place. Burns supporters, though few in Dickinson's home county, are on the campaign trail again this week and are looking forward to a decisive victory in the election scheduled for May 26.

The tall, polished and poised mayor of Jacksonville was already hard at work on the second primary campaign.

Even before he made his victory statement, Burns was on the phone to his campaign workers in many parts of the state.

His theme was constant—don't let down; work harder than ever. "What a shame—and a crime it would be for us to become complacent and sit down and lose the race three weeks from now," Burns said.

He called on the "Burns Blitzers," as his campaign workers are called, to get out their Christmas lists and business lists and write letters asking votes for Burns.

Public Hearing On Cane Wage Price

USDA announced a public hearing on fair price for 1964 Florida sugarcane crop and on whether wage determination applicable to fieldworkers — which became effective November 13, 1963, should be continued or amended.

The hearing will be held on May 15, in the auditorium of the Palm Beach County Glades Office Building, Belle Glade, Florida, beginning at 10 a. m. To qualify for payments under Sugar Act of 1948, as amended, producers must pay all persons employed in producing cultivating, or harvesting sugarcane, wage rates not less than those determined fair and reasonable by the Secretary of Agriculture after public hearing and investigation.

Producers who process sugarcane grown by others must pay prices for it also determined fair and reasonable by the Secretary.

To obtain best possible information, USDA requests that all interested persons appear at the hearing to present views and pertinent data. The notice specifically requests interested parties to present testimony and recommendations regarding:

(1) Methods of determining deductions for trash delivered with sugarcane; and (2) any changes in the calculation of season's average price for sugar and net sales price of molasses used as basis of settlements with producers for sugarcane.

Farmers' Credit Up By Fed. Land Bank

"The amount of credit extended to farmers during the year 1963 by Federal Land Bank Associations was the largest in history," according to Mr. Jefferson Davis, Vice President of the Federal Land Bank Association of Miami. Mr. Davis has just returned from Tampa where he attended the annual conference of land bank associations of Florida and Georgia on April 27th and 28th.

Officers of the Federal Land Bank of Columbia presented the annual report of the bank to stockholders during the conference. The bank makes long-term farm loans through the 46 Federal Land Bank Associations in Florida, Georgia, North Carolina and South Carolina. The Stockholders of the bank are these associations which own all the bank's capital. The report showed assets of the bank now total over \$250 million, with net worth and contingency reserves of nearly \$30 million, an increase of more than \$3 million over the year 1962.

"Of the \$241 million mortgage loan account on December 31, 1963 (up 13.27 percent over last year, with over 35,000 farmers in the four-state area served by the bank) over \$46 million is in 3,419 loans with Florida farmers, growers and ranchers," Mr. Davis said.

Farmers obtained 5,566 new loans from the bank in 1963 for nearly \$67 million, a new all-time record.

Other officials of the Federal

Land Bank Association of Miami attending the conference were John G. DuPuis, Jr., Director, Miami, Florida; Edwin F. Frehlich, Director, West Palm Beach, Florida; Chas. D. Long, Jr., Manager, James E. Davis, Assistant Secretary-Treasurer, Farmers PCA; Merle Palmer, Representative, Farmers PCA.

The Miami Association handles the making and servicing of loans for the Federal Land Bank of Columbia in Okeschoobe, Martin, Palm Beach, Broward, Collier, Monroe, and Dade Counties out of the association offices in Miami, Belle Glade and Vero Beach.

Why should you buy U. S. Savings Bonds when there are so many other good investments?

To help your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a bond or through regular purchase of Bonds at your bank.

Another unique advantage of U. S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

"Surely your turning of things upside down shall be esteemed as the potter's clay." This verse from Isaiah (29:16) will be a major theme at Christian Science churches this Sunday. The subject is "Adam and Fallen man," and the responsive reading opens with Genesis (1:27): "God created man in his own image." The Lesson will conclude with these lines from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The great truth in the Science of being, that the real man was, is, and ever shall be perfect, is incontrovertible; for if man is the image, reflection of God, he is neither inverted nor subverted, but upright and Godlike" (p. 200).

What hasn't happened to U. S. Savings Bonds?

They've been stolen and thrown into a river. Mistakenly left in an oven and baked at 400°. Hidden in a cookie jar and eaten full of holes by hungry beetles. Forgotten in a pair of work pants and washed, bleached and spin dried. Cut in to tiny pieces by an irate wife. Gnawed by mice, and gobbled up by goats.

Yet, in spite of all these misfortunes, these Bonds weren't lost to their owners. They didn't stop growing in value.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{3}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{2}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{2}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

Wee Care Center In Need Assistance

During the next few weeks, contacts will be made by workers headed by Mrs. Roy W. Brown, chairman of the Salvation Army drive, to meet some of the obligations in connection with the Wee Care Day Center Nursery.

Last fall a drive was launched for funds for the Wee Care Day Center building. The drive at that time was set at \$70,000 as the necessary amount, which also would include maintenance for a year. Although the full amount was not raised, a sizeable amount was raised assuring the committee more would be forthcoming. The building was put up, thousands of dollars were donated in volunteer labor, in order to complete the project.

The registration is well over 100 the average daily attendance runs about \$0 to \$5. A set fee of \$2.00 per child has been set, this is based on the income, the number of children and the circumstances involving the family.

This cannot be a self-sustaining nursery, because in the first place it's purpose was to meet a certain need, that need is being met now. Mothers who must support themselves as well as their children are given first preference. There are many such cases and the full fee cannot be charged, under such circumstances.

In addition to the personal contacts which are being made, appeal letters are being mailed out this week. These will go to the many prospects, who were not contacted last fall.

Contributions should be mailed direct to Russell Tucker, treasurer of the local fund. Checks should be made payable to Wee Care Day Center. Anyone desiring to make a pledge, payable monthly or quarterly can do so.

The committee as well as the community is proud of this project, such a building and program could only be made possible because of the outstanding cooperation of the citizens in general.

The Wee Care Day Center is operated by The Salvation Army, with Major Otis Street in charge, Ruby Rutledge is director of the nursery.

It is essential and necessary to raise funds for this worthy project to meet some of the obligations, which at the present represent the amount of \$1,200.00.

Imported Beef Rough On Florida

GAINESVILLE — Imports of beef from Central and South America, as well as Australia and New Zealand, have been assailed by a Florida Farm Bureau spokesman.

Charles E. Freeman, Okeechobee cattleman and a state director of the Florida Farm Bureau Federation, appeared before the U. S. Tariff Commission in Washington last week to urge import restrictions.

In his testimony, Freeman reported that on one day alone, on March 13, 1964, Florida experienced the importation of over 31 million pounds of red meat. This is equivalent to approximately 1-10 of all the beef butchered in the state during one year.

Freeman, who is chairman of the FFB's Cattleman's Committee, said a large American restaurant chain has set up a slaughtering house and quick freeze house near Bogota, Colombia, and is buying cattle at 7 to 8 cents per pound. The company slaughters the cattle, bones and freezes the meat, which is shipped to this country where fat is added and sold to consumers as hamburger.

U.S.S.C. Fine Record Of Employment

CLEWISTON — The United States Sugar Corporation, with headquarters in Clewiston, boasts of one of the finest records of employment of any industrial concern in the state. This fact was emphasized recently when service emblems were presented to employees having unbroken records of five or more years service with the company.

Some 135 employees received the service pins at the close of the 1963-64 harvest and grinding season. A total of 15 of the 135 had served U. S. Sugar between 25 and 40 years. Total service of all employees honored reached 1570 years of unbroken employment.

The ceremonies followed a grinding season of some 146 days when 1,899,401 net tons of sugar cane were ground into raw sugar. Over 10 thousand gallons of molasses was extracted from the cane as it was ground. The 44,429 acres of cane produced by the company and the 8,417 acres of cane supplied by independent growers showed a marked gain over production from the previous season of 1962-63.

Additional gains are expected next year when some 65,000 acres of sugar cane will be planted.
